

# 2011 CONSERVATION TREE & SHRUB SEEDLING PROGRAM

ORDER BY MARCH 18, 2011. Seedling orders are filled on a first-come, first-served basis. As we have no control over the weather or your choice of planting sites, times or techniques, Erie County SWCD will not be responsible for your plant stock after it leaves our distribution center. A fee will be applied for returned checks. No refunds will be offered for orders not picked-up. DISTRIBUTION DAY IS APRIL 16, 2011.

**The Conservation Tree and Shrub Seedling Program is an annual sale of evergreen and deciduous seedlings and transplants for the conservation of natural resources and for the enhancement of forestry, wildlife habitat and economic development in Erie County.**

Erie County Soil and Water Conservation District is a local government subdivision under New York State law. The District was established by the County of Erie in 1943 to protect natural resources and water quality within Erie County. Your participation in the seedling sale aids the District's conservation programs. Thank you for your continued support.

## 2011 PROGRAM HIGHLIGHTS

### Online Seedling Information

Visit our website at [www.ecswcd.org](http://www.ecswcd.org) for seedling descriptions, planting tips, a printable order form and more!

### American Chestnuts Have Later Distribution

Due to harvesting issues we will have a separate distribution of Chestnut stock at the District Office in East Aurora on Saturday April 30, 2011. Please know that you will have to pick up any other stock that you order at the April 16 distribution.

### New Species Featured in Wildlife Seedling Packs

Spicebush, Strawberry Bush, American Larch, Black Gum, Honey Locust, Dawn Redwood are new pack species that customers can try for variety in backyard habitats. See seedling descriptions at [www.ecswcd.org](http://www.ecswcd.org) for more information.

### More Transplants

Many species are now available as bare-root transplant stock - more mature plants with thicker stems, more branching and larger root systems than bare-root seedlings.

A Transplant Variety Pack is now available!

SEE THIS PAGE FOR SELECTION

Bare-root Transplant

Bare-root seedling

## GENERAL AGE AND HEIGHT

### Bulk Seedling Stock

Grown in seedling beds:

Evergreen: 3 years old;

10-18" height above the roots

Deciduous: 1-to-2 years old;

12-24" height above the roots

### Bulk Transplant Stock

Grown 2-to-3 years in a seedling bed then

1-to-2 years in a transplant bed;

10-24" height above the roots.
